Midnight Despatches.

Fearful Firing on Sunday Night.
Excitement in the City.

VERMILION, May 1, (P. M.)—The negotiations for the surrender of Fort Fay have failed. The bombardment has recommenced and is now violent.

In the Assembly to-day Minister Huard stated that the Municipal Council of Montreal had passed off quietly yesterday evening at Lyons, where the garrison in the Mayor's office is holed up, was besieged by a riotous crowd of men partially armed. M. Valentin, prefect of the department, with the assistance of General, succeeded in restoring order, though not without a conflict in which the former was wounded, but not dangerously.

There also was a slight disturbance in the town of Tiers, department of Rhin in Dom, which was repressed.

Paris, May 1.—The firing last night was fearful and apparently utterly reckless, nothing to compare with it has occurred since the commencement of the civil war. The city is greatly alarmed, and groups of frightened people are collected in almost every street and avenue throughout the city.

General Oudinet's wound is a severe one and his recovery is doubtful.

The delegates from the Masonic lodges of Paris have returned from a meeting called to discuss anything. They report that there is no possibility of a peace arrangement with the Paris Commune.

Morning Despatches.

German Interference Threatened in the French Civil War.

Fort Lay to Surrender.

General Cluseret Arrested.

Preparations for Defending Paris.

NEW YORK, May 2.—Special correspondents telegraph the following:

BRUXEL, Sunday, 30th April.—An Imperial Council was held today to consider the situation of Paris. Victor Balthazar, president of the Council, stated that the Versailles Government had a further limited period to be allowed for the restoration of order, the enforcement of order, and the fulfilment of the treaty stipulations, after which Germany will take independent action to establish law and order in Paris. The dispatch will emphasize the wish of Germany not to interfere in the internal and political affairs of France, but will add that such interference will be necessary in the event of a revolution, and characterized by disgraceful excesses, cannot longer be tolerated for the moral and material interests of Germany, as well as those of the whole of Europe are suffering.

Private reliable information leads to the belief that it is the intention of the German Government to restore the republic as the legitimate government, to the event of the Versailles Government being unable to enforce its authority.

VERMILION, Monday Night, May 1.—Fort Lay proposes surrendering, the Government troops around the Fort. Hostages are demanded by Gen. Fay as a guarantee that the fort will not be ruined, and he threatens that if it is blown up the garrison will be shot.

Gen. Cluseret has been captured by Havel, a young man of 26, and a Lieutenant of French Engineers.

Sixty thousand men are ready at Le Mans to make an attack.

PARIS, Monday night, May 1.—The second sortie of the fortification has been effected, close to the rear fortifications.

It is in ruins and the village has been evacuated.

I understand that the fort has been ruined, and when the Versailles troops enter, it is to be fired.

Monsieur, the Governor of Lyon, has been arrested.

The Journal Peix has been suppressed.

Dombrowski has ordered the inhabitants of Neully to evacuate the place within 24 hours.

The case of Cluseret's arrest was the subject of a trial, for which he was partly blamed.

The High Commission.

Rumors Regarding the Treaty.

Professed Enumeration of its chief Points.

Fishery Rights to be Sold.

Englishmen to be Compensated.

Arrival of the "City of Antwerp."

NEW YORK, May 2.—A Washington telegraph says: Notwithstanding the anxiety that members of the Joint High Commission have expressed in regard to the points of the treaty they have negotiated, there remains no doubt that it provides for the recognition of the claims of Englishmen for damages during the civil war; that a money compensation is to be given for the loss of the Canadian fishing grounds; in short, that the navigation of the St. Lawrence is to be free to our vessels, and the navigation of the Canadian canals, bound only to a payment of tolls. The San Francisco boundary question is not yet fully settled, but we shall probably get all the claim in this direction.

The same correspondent assures us that the prominent points of the new treaty are as stated, that our demands for indemnity for the depredations in the "Alabama" are conceded. Englishmen in this country who suffered by our civil war are to be indemnified, and our demands are to have the privilege of the "Alabama" on the payment of a certain sum as compensation therefor by the United States. It would be remarkable that the claims of Englishmen for damages are estimated at some \$20,000,000 more than our estimate of the damages by the "Alabama."

NEW YORK, May 1.—The steamship "City of Antwerp," from Liverpool, has arrived.

LATER.

NEW YORK, May 2.—A Washington special to the "Post" says that in consequence of the expressed intention of General Butler and Banks to oppose with all their might the ratification of the treaty which the President will send to the Senate, embodying the concessions reached by the Joint High Commission. Both Generals are dissatisfied with the result reached by the treaty, and the consequences may be that the United States are too great, and not for the interests of the country. The fact that they intend to oppose the ratification of the treaty, which contains no concession in administration circles.

Chancery Spring Suitings.
The Court on Monday was occupied chiefly with the following cases:
—*Hubert (London) vs. the State.*
A Mr. K. of Montreal, died some years ago, leaving among other bequests the sum of \$1000 to his daughter, Mrs. Hubert, the plaintiff in this suit. Her mother, the defendant, was to receive the sum of the personal property of the testator, but she had the right to the use of the money so long as she lived. In case, however, she thought fit to invest it in real estate, it was to be for the benefit of the plaintiff and the heirs of her body. Mrs. Hubert realized the personal property and paid it to the defendant. The bill was filed on behalf of the daughter to have the land decreed to be hers and to get possession of it. The judge held that the land having been invested pursuant to the trust, the land must be held as belonging to the daughter in fee simple, and she was entitled to the land. The judge held that the land having been invested pursuant to the trust, the land must be held as belonging to the daughter in fee simple, and she was entitled to the land.

The Hamilton "Times" and the Deloraine Case.
Of all the grist sheets in Canada, the Hamilton Times is the most unscrupulous in defence of the leaders of its party. The Globe gave the cue, and the Times followed it up with a vim that the other sheets would not have dared to follow. To justify Mr. McKenney in voting for the Deloraine case, the Times published a long article, in which it said that the matter should be referred to a committee, and that Mr. McKenney was not to be blamed for his vote. The Times also published a long article, in which it said that the matter should be referred to a committee, and that Mr. McKenney was not to be blamed for his vote. The Times also published a long article, in which it said that the matter should be referred to a committee, and that Mr. McKenney was not to be blamed for his vote.

Howell's Scott Murder Resolution.
Under this heading that serious sheet the Hamilton Times brought against Mr. Blake. The Times said that the resolution was a "mere catch," and that it was in violation of the rules of the House. The Times also said that the resolution was a "mere catch," and that it was in violation of the rules of the House. The Times also said that the resolution was a "mere catch," and that it was in violation of the rules of the House.

Satan Reproving Us.
Many of our contemporaries come to us with their columns crowded with the details of crime. We are told that the number of crimes committed in the city of Montreal is increasing. We are told that the number of crimes committed in the city of Montreal is increasing. We are told that the number of crimes committed in the city of Montreal is increasing.

Midnight Despatches.

London, May 5.—The final dispatch from Paris says that all hopes of peace have been abandoned. Dispositions of Frenchmen have been to the provinces to assist in favor of the Commune. There was heavy fighting yesterday between the forces.

A dispatch from Havre says the Frenchmen of that city and Fécamp have agreed to make a joint entry to the Vennet (Government) and the Paris Commune for the liberation of the Channel Islands.

A letter to the "Telegraph" says that General Borel, War Minister, defends the conduct of General Cavaignac. The Republican Union League demands the negotiation of a truce for three days. The railway station at Antwerp has been destroyed by the fire of the Venetians, and the inhabitants of the place are flying from the bombardment. Since Friday last the Venetians have killed over 8,000 men in killed, wounded and prisoners.

Venezuela, May 5.—There was considerable fighting around Fort Luy, today, but nothing of importance was done.

Another Arrest by the Commune.

New York, May 5.—A special Venetian dispatch says that Jules Favre and Quier, Minister of Finance, have started to meet Venetian at Frankfurt. It is thought the cause of the meeting has reference to money matters. The truth is that the Venetian authorities have telegraphed that if the Venetians do not enter Paris by Monday, the Prussians will on Tuesday. Favre hopes to gain an extension of time, but he is unlikely to succeed. It is probable the Prussians will bring back the Empire if they enter.

Favre and Bismarck are likely to reach agreement, in consequence of discussion in the Assembly. There was no fighting to-day, but it will begin tomorrow.

It is believed a grand attack will be made on Sunday night. The troops are in excellent condition.

Moulin and Saguet were taken by strategem. A sergeant dressed in a blouse, pretending to be a French National, cut down the enemy, and before there was time to give the alarm the fort had fallen.

Nearly 1,000 prisoners were taken yesterday. A Paris correspondent telegraphed last night that Gen. Rossel, and that he had been arrested. He was released, a commission from Thiers was refused, that the assertion is devoid of truth. Since the capture of Paris the Venetian has been the enemy has been broken, and he remained at his post simply to await the day he had in hand. For a long time past his conviction has been unshaken to the former social organization of old France, which has just accumulated to such a costly manner.

Great consternation prevailed in the Quartier des Gobelins today respecting three battalions captured at Moulin and Saguet who all belong to that quarter. The women gathered in crowds to enquire for their husbands and friends.

The killing of the Commune was stormy yesterday.

The chief of staff of the Venetians has been arrested on a charge of deserting the Commune to report to the quantity of stores in the ships under his charge.

HOUSE OF COMMONS.

London, May 5.—In the House of Commons to-night, Viscount Eddell stated that the Government was not aware that any correspondence had passed between Napoleon III. and the Emperor of Austria in the alleged demand of Napoleon for the cession of Metz.

In reply to the question regarding the progress made by the Joint High Commission at Washington, Viscount Eddell said the commission had not yet been signed, but he was inclined to state that it had been agreed that the British claims should be heard by a special Commission.

DESPATCHES TO 41 P. M.

Venezuela, May 5.—There was considerable fighting around Fort Luy, today, but nothing of importance was done.

All news of communication between the Venetians, in Fort Luy and Venetians have been destroyed.

The Government forces are being completed despite the heavy fire kept up by the Commune.

The supplementary elections to fill vacancies in the Assembly have been postponed until after the surrender of Paris.

At noon to-day there was sharp engagement in the trenches in front of Fort Luy and Venetians. The Venetians troops carried by assault a small redan defended by a force of Communists, who were taken prisoners. The news was, however, corrected by the Venetians, in consequence of its exposure to the fire of Fort Venetians.

Venezuela, May 5.—There was considerable fighting around Fort Luy, today, but nothing of importance was done.

All attempts at communication are hopeless.

American Despatches.

Washington, May 11.—Much attention has been expressed in official quarters at the publication this morning in New York papers of the treaty of Washington. Some official enquiry will be made as to the mystery of the publication, and also the means of correspondence obtaining information concerning the debate in secret session.

Concerning the debate of the President, communicating the treaty to the Senate, it is said to be very brief and makes no recommendation, but merely submits it for consideration.

New York, May 12.—The "Tribune" Washington correspondent telegraphed last night that there are very few who criticize the treaty as a whole, but the following are some of the points which will arise in debate: They will relate principally to the article which provides for the settlement of the claims of British subjects. Considerable surprise is expressed by Sumner and one or two others that the American Commissioners did not insist that Great Britain should submit a schedule of the claims of her subjects, as it might be definitely settled by what kind they are and what is their amount, and that they will include any of those which the American public will be likely to object to, and Earl Granville's letter to Lord Lyons about the claims of British subjects in France has been cited to show that there is no occasion to fear that they will be large, but the reply is that it is not the case, and that the treaty is a very much more satisfactory to have had those points definitely settled in the treaty itself.

at once. The readiness with which the subject adheres to any hard substance, as above noted, is the foundation of an important branch of industry in the oyster culture. The cultivation of the oyster is not new, having been practiced on a limited scale by the ancients, but in America the prosecution is comparatively recent.

The oyster, even after it reaches maturity has several other uses. The most troublesome of these in our water is the starfish, or five finger, which causes great destruction among them. It is said that the starfish kills the oyster by enveloping it in a closely that it is prevented from opening its shell, and thus suffocated and becomes the food of its enemy.

Prince Edward Island.

A correspondent writes as follows from Prince Edward Island:

This island has often been called the garden of British North America, and there is much to bear out in this boast. It strikes one as resembling rather the more highly cultivated states of Canada than that the forest clad hills of the adjacent Provinces. The English traveler might imagine himself in an English county which had been surreptitiously sent from the Mother Country a century ago and anchored in the St. Lawrence, to keep it cool. Though thickly settled, enough timber is left standing to satisfy the picturesque; and the mingling of the appearance very pleasing to the eye. Rows of trees and hedges of thorn and spruce often take the place of the overhanging cliffs. In very few other parts of the continent are so many more properly and well to do. One has only to see the neat and comfortable homestead, and broad acres under the plow, to arrive at the conclusion that P. E. Island is a farming country. As a plain setting above all else a jewel to Providence, so Nova Scotia and New Brunswick enhance the traveler's appreciation of the Island. The soil, as I have said before, is very fertile, and the crops (with the exception of wheat) equal those of the best farming districts of Upper Canada. Oats and potatoes are the staples. The former are exported largely to England and the latter, during the past year over 1,800,000 bushels were exported to America, besides about 800,000 to American ports, also a total value of \$750,000. Potatoes are also exported, but the greater part find producers a waste, the export of which has been prohibited for the past year to \$300,000. Barley is much grown and is consumed chiefly in the breweries, of which there are several in Charlottetown and vicinity.

Vaccination.

The following may be regarded as axioms and should be known and observed by everybody:

Every child should be vaccinated as soon after it is six weeks old, as possible.

No property vaccinated after the age of five, and small-pox to the age of puberty.

Every one should be vaccinated at or after puberty.

No vaccinated person can take small-pox, at least within 50 years of age, and rarely after that. But it would be prudent to revaccinate a second time, at or after 80 years of age.

The vaccine employed should be from a reliable source, and therefore should be obtained through a respectable medical man.

If doubt exists as to the goodness of the vaccine used, revaccinate, and if the previous vaccination had been good, the latter one would be inert; if bad, the latter one would be good.

No one observing these rules, need in the least, fear small-pox.

The Pope Expected in Corsica.

The Italian journals have persistently announced that the Pope will shortly leave for Corsica. The Paris "Belle Epoque" does not know whether there is any truth in these rumors, but it has received the following letter from Corsica: "By the order of a well known Cardinal the Villa Bacciocchi, near Ajaccio, has been prepared to receive a great personage, who has the intention to reside there incognito." One of our friends, says the "Belle Epoque," who has visited this little place, has assured us that the simplicity with which the expected guest is expected to live does not exclude luxury in the furnishings of the apartments. It is M. Gironetti and a great lady who have made these grand arrangements. Everything has been done with the utmost care and delicacy. Who is the great personage expected?

Wages in England.

According to the best authenticated accounts, the wages of workmen were first fixed by act of Parliament in 1833. In 1850, Haymakers had but one penny a day; master-carpenters, masons, tilers, and other workers of houses, had three-pence per day, and their servants had one penny. By the 23rd Henry VI, the wages of a day laborer of husbandry was twenty-three shillings and four-pence per annum, and clothing of the price of five shillings, and a good drink; child hired servant, five shillings, with meat and drink; carter or shepherd, twenty shillings—clothing, four shillings; common servant of husbandry, twelve shillings—clothing, forty pence; woman servant, ten shillings and four shillings for clothing. By the 15th Henry VII, a slight advance was allowed.

In 1850, the wages of harvestmen were one penny, but they gradually continued to increase till 1867, when they rose to five shillings, and they have since then but little change since. What would men think if they were compelled to work for a penny a day in Canada at the present time? They would be compelled to starve or steal.

—Bishop Colenso after all the discipline to which he has been subjected, must be given up as a hopeless case. He is a man who is conducting the service he prefaces the reading of the creed by the remark that personally he does not believe it, but that he recites it as an officer in the army. This is a curious Church and State vengeance. However, it must be allowed that in his explanatory confession the Bishop is at least candid.

Midnight Despatches.

Imperial Parliament.
Earl Russell and the Washington Treaty.

Notice of an Important Motion.

HOUSE OF LORDS.

London, May 15.—In the House of Lords,

night.

Earl Russell gave notice of his intention

to move an address to the Queen against

sanctioning the ratification of the Alabama

treaty in case the arbitrators are bound by

rules or conditions other than the laws of

nations, and the English municipal law

existing during the civil war in the United

States when the alleged depredations upon

American commerce were committed.

Earl Granville declined, against the

resolutions of Lord Stratford, the result of

the recent Conference of the Great Powers

upon the Eastern question, by which he

affirmed a reasonable settlement of the

questions in dispute had been secured.

Russell was fully satisfied, and all the

powers concurred in the new policy under

which Turkey still retained a stronger

naval power in the Euxine than Russia had

acquired.

The Marquis of Salisbury replied to Earl

Granville, condemning the action of the

Government, which, he said, implied an

admission that the Alabama question, should have

waited until the end of the pending

struggle and then demanded satisfaction

from Russia, for the course in reference to

the treaty of Paris.

HOUSE OF COMMONS.

London, May 15.—In the House of Commons

to-night.

Viscount Easfield, Under Secretary for

Foreign Affairs, and the Government were

not prepared to state the exact terms of the

treaty of Washington as a copy of the document

had not yet been received.

Mr. Dimsdale thereupon postponed the

question to the Government to consider

the question of which he had previously given

notice.

Mr. Gladstone stated that the Govern-

ment was unable to anticipate the exact

terms of the arrival of the treaty, but

promised that it should be submitted to

parliament.

Morning Despatches.

FRANCE.

Versailles Repulsed at Neully.

Another Communist General

Arrested.

Government Troops Entered Paris.

London, May 15.—The latest despatches from

Paris state that the Communists report that the

Versailles have been repulsed at Neully.

General Masson, Chief of Staff, has been

arrested.

La Liberte says the Government troops have

entered Paris through the breaches at Fort

Neully and at Antully.

The entry of the troops at Fort du Jour is

imminent.

GREAT BRITAIN.

Imperial Parliament.

The Army Regulation Bill.

The Government Sustained.

The Army Regulation Bill came up, and a

lively discussion ensued. The opponents of

the measure were violent in their denunciations

of the Bill.

The Right Hon. Sir Edward Cardwell

supported the Bill in an elaborate speech.

Upon a division of the House there was a

majority of 65 for the Government.

MEXICO.

An Opposition Triumph.

Revolution in Tampico.

Efforts for its Suppression.

New York, May 15.—A special telegram from

Havana gives late news from Mexico.

The opposition party had elected a

President, and Vice-President of Congress,

which is considered a great victory.

A revolution has broken out in Tampico, and

efforts are being made to suppress it.

Midnight Despatches.
VERSAILES REPORTS.

THE ASSOCIATION OF THE ARMY—THE PRINCE OF WALES—CANNONING OF THE ARMY.

VERSAILES, May 10.—The Assembly today voted the urgency of a motion for the re-establishment of the balance of M. Thiers in Paris at the public expense.

A motion declaring the Republic permanent was referred to a Committee.

Members were ordered to sit at the benches for the session of the civil war.

The Assembly appointed a committee to examine and report upon the treaty of peace suggested at Frankfurt. It is generally expected that the creation of French territory provided for in the treaty will be severely criticized in the Assembly.

The cannons of the extreme Paris Communists unerringly, but the results are not important.

PARISIAN REPORTS.

SEVERAL ATTACKS REPORTED—REMOVED EVACUATION OF PORT MONTROUGE—ADVANTAGE ATTEMPTED TO DESTROY THE COMMUNE VERMORE.

PARIS, May 10.—The Commune announces the report of several attacks made by the Versailles forces on Monday night at Chantilly, Soisy, Pontoise and Meulan. There was a vigorous engagement in the evening, ending with the Versailles troops were repulsed with great loss.

It is rumored that Fort MontroUGE has been evacuated by the federal forces.

The Commune holds a western force of 25,000 men in reserve for use in case of emergency.

Immense crowds gathered this afternoon in the vicinity to witness the expected fall of the column in the place Vendôme. Great efforts have been made by the Commune to prevent the column from falling, but it has as yet withstood their utmost exertions.

The engineers have not, however, given up the idea of success, and are now renewing their attempts. The members of the Commune and battalions of National Guards are on the ground.

GREAT BRITAIN.

Imperial Parliament.

LONDON, May 16.—In the House of Lords the Banking Bill and other matters on Monday and Sunday payable on the following day was read twice.

LONDON, May 16.—In the House of Commons this evening.

The O'Connor Don, member for Roscommon, submitted a motion that it is inexpedient to continue in force the law for the preservation of the peace in Ireland after the date originally fixed as its limitation.

Mr. Gathorne Hardy, member for Oxford University, and Mr. Chichester Fortescue, in consideration of the continual lawlessness in Ireland, opposed the motion.

Mr. John Martin, member for Meath, spoke in Irish in denunciation of English tyranny in Ireland. He claimed the right of self-government for the people of that island.

LONDON, May 16.—Miss Angela Georgina, daughter of the Duke of Devonshire, has accepted a peerage with the title of Baroness Curzon.

Morning Despatches.

FRANCE.

Destruction of the Vendôme Columns.

The Bombardment.

PARIS, Tuesday evening, May 16.—The Column in the Place Vendôme was leveled at 6 o'clock this evening. It fell lengthways into the Rue de la Paix.

Fort Mont Valerien is firing vigorously to night.

American Despatches.

Banquet to the German Minister.

NEW YORK, May 16.—A banquet was given to our Consul at the Union League Club, this evening. Wm. M. Evans, presided. Among the guests were ex-Governor Morgan, A. T. Stewart, Judge G. C. Daly, Prof. Labor and other distinguished persons. In response to the toast to the Baron, he made a very happy speech, and said that the history of Germany in the late war was one great record of the friendship that now exists between the United States and Germany.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 41 P. M.

LONDON, May 17.—The Standard's Versailles special gives a report that Fort MontroUGE has been taken.

The news correspondent says the Republican delegation will present to the Assembly a motion for the appointment of M. Thiers to the Presidency of the Republic for two years, and adds that disturbance is expected in the Assembly.

The Versailles will probably carry the city to-night. The Communists are leaving in dismay.

A good disinfectant may be made by dissolving a heaped tablespoon of water in a barrel of lime, with the water water a barrel of lime, which should be wet enough to form a kind of paste. For the purpose of use as a disinfectant, this mixture made of lime is nearly as good as that purchased at the shops and drug stores. Use it freely about sinks, cellars, gutters, and no-houses, and in this way prevent sickness, suffering, and expense.

The Island of Anticosti.

For many years, attempts have been made from time to time to colonize Anticosti, in the Gulf of St. Lawrence. From various causes these attempts were unsuccessful, one reason it is believed, being the expense of settling on the part of the government of Anticosti.

It is again in contemplation, on the part of some leading capitalists, to settle on the island by developing the resources of the island by colonization. The government of the undertaking state that Anticosti has an area of 2,219,000 acres, having valuable river fisheries, besides being a eligible site for the extensive export of lumber.

It has valuable timber and mineral products of enormous importance, such as marble, limestone for building and other purposes, granite, etc., besides past bog and salt springs, and extensive agricultural capabilities.

Radway's Ready Relief

is better as a cure for all Fevers (Chills, Headaches, Colds, Gripes, Stomach Troubles, etc.) than the Quinine, Malaria, or Chamberlain's Colic, Cholera and Diarrhoea Remedy. Relief is given for hundreds of ills that the rest are not.

One 25 cent bottle of Radway's Ready Relief is an excellent cure of all fevers, equal in efficacy and superior in quality to the best of the medicines of the world. Kills, Cures, Relieves, Rheumatism, Neuralgia, Migraine, Headaches, Colds, Gripes, Stomach Troubles, etc. These remedies being both poor imitations of the original.

One bottle of Radway's Ready Relief is as a Pain Remedy, and for all kinds of acute or chronic Rheumatism, Neuralgia, Migraine, Headaches, Colds, Gripes, Stomach Troubles, etc. can be used for the acute or chronic cases. It would cost at least \$25 twenty-five dollars to purchase the great number of other remedies, and accident takes place.

"The American idea embodied in the preamble is here! Declared and signed before the people of the United States, 'We the People'—all men are created equal,' and endowed Creator by His infinite bounty with life, liberty and the pursuit of happiness. It is the people's fancy, a philosopher's speculation, recognized later by our political genius. It is the people's will, embodied in the Declaration of 1776, finds its great confirmation, just one century in the XVth Amendment, which gives to the colored man the same rights as the white man, as stated in our Republic the shield and defense of Federal Constitution. The failure of State and Federal Legislatures to carry out the spirit of the XVth Amendment seems on the point of widening its away. Justifications are deepened and deepened, and the people are deceived and deceived, and their spray over it in vain.

"We do not understand the force of 'regretful Americans.' We are charged that a very small minority of the American People still hold to the position that there are laws on rights which they are not prepared to give up. We are charged that

New York, May 18.—Special telegraph.

At the close of the day by the explosion was mainly women and children.

All traffic on the bridge has been stopped.

Requisitions have been made on all the street.

A later despatch this morning says.

The explosion of the carriage factory was the worst of the explosion of the Versailles.

A strange story is in circulation to the effect that Capt. Dabois has found in the pockets of the wife of a gun d'arme, in the pockets of the wife of a gun d'arme.

Four persons have been arrested on suspicion.

Members from the army of Versailles have been removed to the interior of the city from the Ecole Militaire, where they have been confined.

The wounded remains of the victims of the explosion were exhibited yesterday in the church of St. Pierre, outside the ramparts.

An immense crowd assembled outside the church, including a large band of National Guards.

Men smoked, drank, covered and nudged as if they were at the Jardin des Tuileries.

The number of persons killed by the explosion was less than was expected, in consequence of the minutes before the catastrophe took place.

An attack of the American Legation was made into the air by the explosion, but not seriously hurt.

Yesterday being the fête of the ascension, large crowds visited the Place Vendôme and Tuileries, where there was a grand concert.

At Gambon, a member of the Committee of Public Safety, had joined the franc-tireurs, who are attacking and disintegrating the army of Versailles.

The inhabitants of the Faubourg St. Antoine, who were among the most enthusiastic supporters of the Commune, are in want of work and as they cannot obtain it, because of the law, they are in a state of desperation.

They are also in a state of desperation, and the quarter in which they live is assuming a disgusting aspect.

There was heavy firing from Fort Belleville this morning. It was caused by the appearance of a reconnaissance party of cavalry belonging to the Versailles Government, who were driven off by the guns of the fort.

A serious attack upon the ramparts of Paris is believed to be imminent.

There are 40,000 Versailles troops in the Bois de Boulogne, and they are preparing forward their 40,000 with great vigor.

Dr. Hope said it would be well to be

on Church Street, near the residence of
Reeves and asked Mr. Foster to make

but merely happened to be there for the purpose of having some conversation with

County Committee regarding the improvement of the Court House hill.

Mr. First said the settlement was not, and they were obliged to come to a settlement, otherwise the matter would have been put to a vote.

Mr. Bull withdrew his objection as the matter had been approved by the Mayor. He had supposed that the people had taken upon themselves to settle the matter. This report was then adopted.

Mr. Henderson moved the adoption of the report of the Market and Police Committee. A long discussion on the legal question of the report of the Market and Police Committee.

Mr. Henderson, Hope, Bull and the Mayor, on the issue regarding the Police matter.

Mr. First moved, seconded by Mr. Bull, that the committee of the Mayor be retained to prosecute the said bond.

The matter was put to vote on the following terms:

Yates—Messrs. Bull, First, Vandusen and Foster—4.

NATY—Messrs. Henderson, Smith, Reed and the Mayor—4.

Dr. Hope was excused from voting, which left the matter a tie. The Chairman voted with the negatives, and declared the amendment lost.

The remaining clause were then adopted. Mr. Foster stated that the Fire, Water and Gas Committee had not been discussed, consequently the application of the said Committee.

The Committee of the Whole then rose and reported.

The report was adopted.

MARKET BY-LAW.

Council went into Committee on By-Laws. Mr. Foster in the chair.

The By-Law for the amendment of the Market By-Law was read a second time.

During the reading, the members dropped off, one by one, leaving a bare quorum for the transaction of business.

Committee rose and reported.

The By-Law was then read a third time, passed and numbered 342.

FIREMEN'S DEMONSTRATION.

The Mayor stated that an invitation had been received for himself and Council to accompany No. 1 Fire Company on a short excursion on the Bay.

STREET WATERING.

Mr. Patterson stated that two tenders had been received by the Committee on Streets for the watering of Front and Second Streets, but both were deemed too high. They had now arranged for the watering of the above-named streets at \$16 per week, the Corporation to furnish the water.

BOOK AND LADDER.

On motion of Mr. Foster, a matter pertaining to the Book and Ladder Company were referred to the Fire, Water and Gas Committee, with power to act.

AUDITOR'S REPORT.

Mr. Henderson called attention to the fact that no action had been taken on the Auditor's report, which had been before the Council for a long time now. There was one clause in the report to which he would be compelled to refer, and that was, that one setting down certain liabilities as \$77,000, which he had not considered liabilities.

If the Chairman of Finance did not move in the matter, he would be compelled to do so.

The Council then adjourned.

GREAT CALAMITY.

The Town of Bradford in Ruins.

125 houses destroyed by fire.

Loss estimated at half a Million.

60 families entirely homeless.

Aid sent to the sufferers.

BRADFORD, May 22.—The alarm of fire was sounded this forenoon at half-past seven and the fire was soon discovered in the bakery of Mr. Edmonson, on the north side of the street. Those who were in charge had just renewed the bake furnace with a fresh charge of fuel and gone to breakfast, when in seven minutes, and their astonishment, they were confronted with the flames that the store occupied by Mr. Morgan, druggist, in which was the office of the Montreal Telegraph Company, was seen in a blaze and he was not able to save any of his stock. He was insured for \$1,100. The flames then spread west and east, thence crossed to the south side and spread east, and when it caught Bingham's hotel, took a sweeping course southward and took every building south to the railroad.

The Revere's trip to the Revere of Newmarket for an engine, which was taken up by the 9 o'clock passenger train and arrived in time to assist the Bradford engine in combating the flames to the Town Hall and market house and then it was stayed, but not before it was consumed together with about six thousand dollars worth of pork which was in the ground flat.

There are about 125 houses and stores burned; and a store of dry description is left to supply the sufferers with necessities.

Newmarket sent up a supply on the evening express. Over sixty families are left homeless. Many families left by evening trains for adopted homes. Some children left the town homeless and hungry. Many mechanics were left with nothing but the clothes they wore at the time of the origin of the fire, even without coats.

The farmers in the vicinity came in with wagons and took a great many families home with them.

Mr. Bingham, hotel keeper, just before he himself in time to run for his wife (who had been sick for two weeks and was unable to walk) to the hospital, but not for the part of the fire was ignited. He carried her to a place of safety.

Some gossamer veils were carried by the wind from Bradford and lodged on a fence on Young street south of Newmarket, some stained clothing were strewn on the streets of Newmarket.

The loss by fire cannot be less than from five hundred thousand dollars. One

prominent man has placed it as one million.

From the excitement of the people it is impossible to state the names of the sufferer, or the amount of loss, or amount of insurance, or the companies which property is insured by.

The goods in the Express office were all consumed. The cash box containing the agent's own money and express money was carried to a supposed place of safety, but was lost.

The ravages of the fire only lasted for an hour and a half.

M. Picard, who, as Home Minister, announces to the Assembly the proposed law, McMahon, assures us that 'this is not an insurrection in Paris approaches'. Few in the city can discover the grounds for such assertion, although there are

who do not long for such a consummation. We have heard this assurance so often that it is now ranked among 'the positive truths' of the theatres, or the 'firmly established facts' of popular artists. Moral

Avalanche in Paris.

The Archbishop and 50 Priests Murdered.

Confagration Extending.

New York, May 25.—A correspondent telegraphed from Versailles last night—

Paris is being burned to the ground. The mad and frenzied insurgents deliberately fired the Louvre, Tuileries, Grand Palais, Hotel de Ville, Ministry of Finance, churches, and every public building in the city. The confagration is rapidly extending.

The correspondent tried to enter Paris, but found it impossible. He watched the fire as he noticed a tremendous increase, and one third of the city, he says, will be burned before he leaves.

Another correspondent from Versailles telegraphed—

The insurgents were beaten everywhere except at Belleville, Montmartre and Auteuil. The city is being shelled. Belleville is a prisoner. Dombrowski is a prisoner of the Communists. M. Thiers announces that all Nationalists will be shot immediately.

A letter from Paris says that the Versailles are masters and the city is in a state.

Versailles, May 25, (cable)—Archbishop Darbois, his bishop and twenty-five priests were murdered in cold blood at the Meaux prison on Tuesday night.

Several leaders of the Communists were shot after being tried by a drum head court martial.

Other Paris (afternoon) May 25.—Since noon a strong steady westerly wind has blown which blows the flames toward the Place de la Bastille, threatening the entire city with destruction. The Government batteries are bombarding the Belleville quarter. Communication with the latter of the city is still closed.

Versailles, May 25.—M. Thiers read an appeal despatch in the Assembly today, announcing that Fort Montmartre, the redoubt of Auteuil, the Tuileries, the Louvre, and the Vincennes Market have been taken by the forces of the Government.

It is rumored that the Versailles have occupied the Hotel de Chamouny, whence the insurgents have been bombarding the city with petroleum shells.

New York, May 25.—The 'Tribune' cable despatch from Paris of the 24th, says—

The Communists do not attempt to occupy the houses and dwellings on the Avenue de la République. They are content with utilizing the barricades and such places as the streets afford. On the other hand the Versailles enter the houses and dwellings on the Avenue de la République and occupy themselves very little. They never venture on hand to hand fighting. A handful of resolute Communists held the Boulevard des Capucines but were gradually turned away in flank and rear, and after gallant resistance slain by the new forces.

House, 25 insurgents killed at Belleville. Versailles are afraid to rush on them, and push from house to house, firing from the windows, while their artillery away the streets. They are not slapping their hands, and give wine and money to the troops. The women embrace them and shout of 'vive les lignes'.

The soldiers fraternized warmly but performed excellent discipline.

GREAT BRITAIN.

London, May 25.—The Derby steeplechase, amounting to about six thousand pounds, were, after the race, presented by Baron Rothschild to Wells, who rode the winner.

G.) in honor of the distinguished part the Battalion took in repelling the Fenian raid last year, took place with great éclat at Hedford on the Queen's Birthday. Mrs. Wood, wife of Hon. Thomas Wood, M. L. C., a Warden of the County, discharged the duty of presentation, and Col. Chamberlin acknowledged the honor conferred upon himself and his officers and men in an appropriate speech.

American friends. They have placed people here under additional obligations for thus prominently bringing before cities of Rochester and Oswego the best of Belleville for situation, its commercial advantages, and the social and hospital qualities of its inhabitants. Our American friends were evidently highly gratified with their reception, and should our friends any time return the visit, they will no doubt be treated like princes.

Midnight Despatches.

London, May 20.—The Times special from Paris this morning says Paris and London are likely to be replaced in the Ministry of Foreign Affairs and Public Instruction.

The instruction General commanding at Orléans has asked for passports for his troops at Valenciennes and was refused by the French Government, to the text of the peace convention.

Versailles, May 20.—In the Assembly today, General Changarnier defended Marshal Bismarck's capitulation of Metz.

Gen. W. Léo announced that all captives during the German war were to be treated by a couple of war.

A motion was introduced in favor of erecting a monument to hostages massacred by the insurgents.

The remains of the inscription consisting of a few scattered words had taken refuge in Villa de Valenciennes, surrendered today.

General Changarnier has returned to Versailles.

BELGIUM.

Conspiracy Discovered.

Brussels, May 20.—The Echo of Parliament reports that the Germans have been informed by some leading members of the Belgian Chamber of Deputies of a conspiracy against the Government of Belgium.

A plot had been formed for the insurgents escaping from Paris to proceed to Brussels where the radical movement was to be continued. An inscription was to be placed in the buildings were to be set on fire, and the horrors of Paris were to be repeated.

SWITZERLAND.

The French Refugees.

Basle, May 20.—The Swiss Federal Council, after considering the despatch of M. Jules Favre with regard to the extradition of the Communists, has decided that an investigation must be held in each case, and only those refugees are to be delivered who are not guilty of ordinary crimes.

Morning Despatches.

FRANCE.

Latest from Paris.

Troops Returning to Versailles.

The City Calm.

Fires in the Tuilleries and Hotel de Ville.

Paris Completely Covered.

The Abomination of Desolation.

Arbitrary Arrests.

Incendiarism by Females.

Paris, May 20, evening.—A portion of the army which entered the city is returning to Versailles.

The 14th and 15th arrondissements, and the Belleville and Villettes quarters remain under military occupation.

The city is calm and the streets are thronged with sightseers.

Fires are still burning inside the Tuilleries and the Hotel de Ville.

The discipline of the army is admirable.

New York, May 20.—A special to the Tribune from Paris on Sunday evening says: Paris looks completely quiet. The shops are all closed, and even those of vital necessity, such as chemists, remain shut. Restaurants, hotels and grocery stores have ended business.

I walked across Paris last night, and never saw anything so desolate. I saw no human beings but sentries every hundred yards and one shabby civilian. There was no sound save the rattling of the sentinels and the tread of their boots as they struck their muskets on the flagstones.

The old revolutionary system of denunciations is going on with terrible ferocity.

Nader, the assassin, has been arrested for supposed sympathy with the Communists.

Nobody is safe, even in the presence of their most intimate friends. A rash word or imprudent gesture by a man or woman leads to instant death. Men, women and even children are seized by the brutal soldier and shot.

The saddest feature is the conduct of the women, the female insurgents having in many instances been detected firing the houses of innocent persons with petroleum.

The Gendarmes consider that the Orleans Princes will be allowed to live in France.

SPECIAL TELEGRAMS.

FROM HALIFAX.

Tidings of the 'City of Boston.'

Increase of Shipping.

Dr. Sewell, the Abortionist.

Desertions from the 61st.

Special Telegram to the Daily Intelligencer.

HALIFAX, N. S., May 20.—The Newfoundland and City of Halifax arrived from New London yesterday. She brings no news of interest. The German galleon 'Meteor' is bound here just late St. John's, N. S., for coal.

The bottles found at Hildre, N. B., and Newport, N. B., containing reports from the 'City of Boston,' are now being sent to be analyzed. A Halifax gentleman has seen the documents at the Hon. Mr. Donnelly's purporting to be from Mr. Thompson. He is acquainted with the handwriting and believes it to be genuine.

The counsel for Dr. Sewell, the accused in the abortion case, has this far been unsuccessful in obtaining his client's release on bail.

The arrival of shipping from various ports in and outside the Dominion consists largely

to increase thirty vessels have arrived here on Friday.

The 'City of Durham,' whose command was unfortunately drowned on Saturday, is expected to sail under charge of the second officer on Friday. Divers and grapples have been employed through the day on the scene of the late catastrophe.

The latest report states that the grapples have been caught on some heavy object, supposed to be the boat which contained the unfortunate man, and a greater force of divers have just been sent to the spot.

The political atmosphere, though not so clouded, is still present all around.

THE TYPE-SETTING MATCH.—According to the returns so far received by Mr. Messing, proprietor of the 'Printer's Circular,' Philadelphia, is the champion type setter on this continent, and will receive the first of the prizes (a solid silver composing stick) offered in the recent competition.

The second prize (a silver medal) will probably be awarded to Mr. Richard McLean, of Philadelphia, who set for ten standards, and the third prize (a bronze medal) will probably be awarded to Mr. Michael Corcoran, of Montreal, who set for nine standards.

Dr. T. D. Daly and W. K. Manning of Scranton, Pa., come next.

Proclamation of Gen. McMahon.

Journalists appealing against Execution.

Communist Leaders still Hiding.

Threats of Reprials against the Army.

Attempts to assassinate Officers.

Sad Conduct of Women.

Attempt to destroy the Innocent.

210,000 Insurgents Killed.

LONDON, May 30.—The Daily News says that trains for Paris will run to-morrow.

The people of Brussels have smashed the windows of Victor Hugo's house. The police now guard his house.

A proclamation from McMahon to the people of Paris announces their deliverance from the hands of the Communists, and that order, security and labor are about being re-established.

The insurgent lines previous to May 24th, when the Versailles troops entered Paris, are estimated at 12,000 killed and wounded, and 15,000 prisoners, and since May 24th 10,000 killed and wounded and 20,000 prisoners. The prisoners have been sent to Versailles. General de Celles, with a few followers, fled to the south of Vincennes, but upon the commencement of the erection of siege works by the Versailles he at once surrendered.

On 26th officially reported having lost 40 officers and 600 men in all the engagements in which his troops have participated since the Versailles army entered Paris.

The Paris Journal demands the cessation of summary executions. Several attempts were made yesterday to assassinate officers of the army.

The bodies of murdered priests are to lie in state for a week.

With the exception of Fyot and Groussat, all the Communists which have been killed or taken prisoners.

Versailles, May 30.—The official Journal, La République, announces that the National Archives, National Library, National Arsenal and Louvre are safe. The Manufacture of Gobelin and the Observatoire are badly damaged.

New York, May 30.—A despatch to the "Tribune" from Paris, dated yesterday says: General Lyautey permits the Paris against foreigners in the Communist ranks. It is alleged that the English Communists alone numbered 4,000. The mistake rose probably from many Communists who sought the English language in America.

Versailles, May 30th, (tele.)—An accidental conspiracy is reported to have been discovered at Versailles. Maguet Gabetta, prefect of Gironde, has been arrested, as the principal conspirator. He was tried to shoot the General who had been arrested.

It is calculated that 10,000 insurgents were killed during the last week. 30,000 prisoners have been taken.

The prisoners at Satory are in a dreadful state. The staff says that thousands sleep with their heads in the mud. There is no food and they are supplied with water by the Communists. The women are supplied with the same. People came to count the executions, so many are shot summarily.

Fort Vincennes was taken today. The garrison which was numerous, was obliged to surrender unconditionally.

The Versailles women display a cowardly resistance against the Versailles troops. I have just seen 4,000 prisoners marched to Versailles, mostly tied together. The crowd were furiously shouting "death to them." A big man who had refused to march was being dragged along by four soldiers when an officer with his revolver and shot him, and one of the bystanders who uttered an exclamation at the act was instantly arrested.

Paris, May 30.—Marshall McMahon's proclamation says:—

"Immediate measures will be taken to establish a system of rigorous discipline and the army will be taken to prevent any further attempt at insurrection."

His announcement that General Duroc, Douai and Vaucluse will take charge of the three temporary divisions of the city for military purposes and will see that the city is restored to order and security, protecting labour, removing great obstructions, and collecting military weapons to be deposited in the yard of the Hotel de Ville. In conclusion he counsels peace and forbearance and bids men France will soon rise triumphantly from her difficulties.

I am glad to state that the

Merrill's Lung Tonic is the best

and most reliable of all the

lung tonics that I have ever

used. It is the only one that

will keep the lungs in good

condition and prevent the

development of the disease

known as consumption. It
